

SUMMER ANALYST INTERNSHIP PROGRAM

Summer Analysts participate in a ten-week summer program

Opportunities to join the program at our Arlington, Boston, Dallas, and San Francisco locations

Key Responsibilities:

- Partner with Investment Analysts to assess investment managers' portfolios; gather and evaluate historical asset allocation, spending, and performance data
- Collaborate with Investment Directors and Analysts to support client inquiries
- Prepare exhibits and other presentation documentation
- Attend meetings with top-tier investment managers
- Conduct research utilizing firm resources for capstone research project

We Offer:

- In-depth onboarding program and experience in investment management, portfolio construction, and client relations
- Structured mentorship program, which partners each intern with tenured Investment Analyst
- High exposure to Investment Directors through team-based environment and leadership lunches
- Opportunity to work on current client portfolios and gain broad exposure across all asset classes
- Virtual and/or in-person outings and events to promote team collaboration and corporate citizenship

At Cambridge Associates, we are only as successful as you are. We actively recruit and invest in the most dynamic and diverse talent and then empower you to succeed.

By leveraging your unique skills, developing your individual career goals, and building a collaborative global community of connected, diverse individuals, we build a community that is stronger together.
